

Stud Removal and Tapping Machines

Information for mechanical stud removal includes:

HD100 Drilling unit – drilling capacity up to 3” (76mm) diameter

HT100 Tapping unit – tapping capacity up to 3” (76mm) diameter

HD400 Drilling unit – drilling capacity up to 8” (203mm) diameter

HT400 Tapping unit – Tapping capacity up to 3” (76mm) diameter

HTE400 Tapping unit – Tapping capacity up to 6” (152mm) diameter

Tooling – Neomet drills up to 2” O.D. & Superdrills from 2 – 10” O.D.

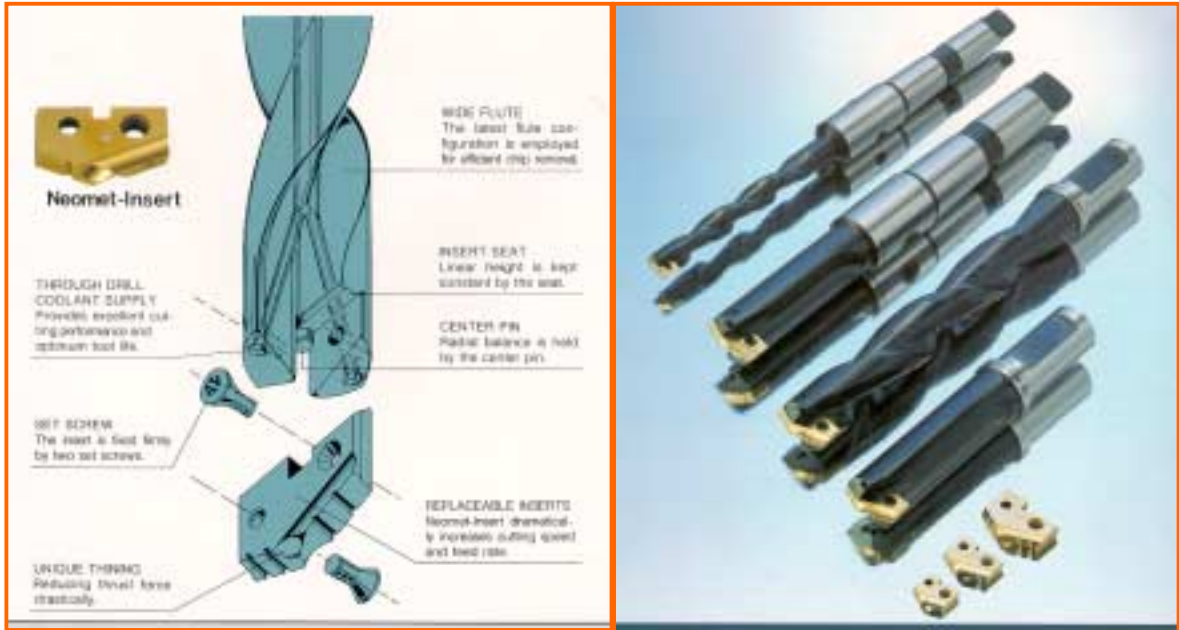

GLOBAL

MACHINE TECHNOLOGY

NEOMET – INSERT DRILL (1/2” to 2” O.D.)

SUPERDRILL – INSERT DRILL (2” to 10” O.D.)
